

Tenure-Track Investigator

Laboratory of Neurogenetics, NIAAA

(deadline: February 27)

The National Institute on Alcohol Abuse and Alcoholism (NIAAA), a major research component of the National Institutes of Health (NIH) and the Department of Health and Human Services (HHS), is recruiting for a tenure-track Investigator to establish and direct an independent research program in the area of comparative behavioral genomics in the Laboratory of Neurogenetics (LNG), Division of Intramural Clinical and Biological Research (DICBR), NIAAA.

The selected candidate will be expected to establish an independent research program that examines how genetic and environmental factors relate to intra- and inter-specific variation in traits that, in humans, are known risk factors for alcohol use disorders (i.e., stress reactivity, behavioral dyscontrol, reward seeking/sensitivity). Candidates must hold a Ph.D., M.D. or equivalent degree. Criteria for selection will include: a strong publication record in the field of genetics/genomics, demonstrated experience using animal models of human psychiatric disorders or addictions, demonstrated success in establishing and maintaining collaborations and demonstrated success in leading and mentoring research staff at various levels (i.e., postdoctoral fellows, research associates, and/or technicians). Resources provided to the selected candidate include laboratory and core laboratory facilities, office space, personnel and an operating budget sufficient to develop this independent research program.

Interested candidates wishing to be considered for this position may submit a curriculum vitae, bibliography, the names and addresses of three references, and a brief proposal that reflects the applicant's research interests/goals and an approach for establishing an independent research program, by the closing date to Ms. Patricia Scullion: Chair, Search Committee; c/o Ms. Patricia Scullion; National Institute on Alcohol Abuse & Alcoholism (NIAAA); 5635 Fishers Lane, Room 2023; Bethesda, MD 20892. (*For Federal Express delivery, Rockville, MD 20852) Note - we encourage you to submit your complete application electronically so that we may confirm receipt of your materials. Submit Via Secure Email to: LNGRecruit@mail.nih.gov <<mailto:LNGRecruit@mail.nih.gov>> . The closing date for receipt of applications is February 27, 2009. The NIH encourages the application and nomination of qualified women, minorities and individuals with disabilities. DHHS and NIH are Equal Opportunity Employers.

###

Tenure-Track Investigator

Human Physiology and Pharmacokinetics, NIAAA

(deadline: February 27)

The National Institute on Alcohol Abuse and Alcoholism (NIAAA), a major research component of the National Institutes of Health (NIH) and the Department of Health and Human Services (HHS), is recruiting for a tenure-track scientist to establish an independent research program in the area of human physiology and pharmacokinetics within the Laboratory of Clinical and Translational Studies (LCTS), Division of Intramural Clinical and Biological Research (DICBR), NIAAA. Individuals with interest in the pharmacology of alcohol in humans and experience employing an integrative approach to evaluate the genetic and environmental determinants of the pharmacokinetics and pharmacodynamics of psychoactive agents are encouraged to apply.

Candidates must hold a Ph.D., M.D., Pharm D or equivalent degree and have at least 3 years of postdoctoral experience. The selected candidate will be expected to establish an independent program to develop model laboratory paradigms to screen novel potential treatments for alcoholism and to evaluate genetic and environmental determinants of variability in the pharmacokinetics and CNS pharmacodynamics of alcohol in humans. Criteria for selection will include: a strong publication record, demonstrated expertise in clinical pharmacology, including advanced pharmacokinetic modeling skills, demonstrated success in leading and mentoring research staff at various levels (i.e., postdoctoral fellows, research associates, technicians, etc.), and demonstrated success in establishing, facilitating and maintaining collaborations.

Resources provided to the selected candidate include laboratory and office space, personnel and an operating budget sufficient to develop this independent research program.

Interested candidates wishing to be considered for this position may submit a curriculum vitae, bibliography, the names and addresses of three references, and a brief proposal that reflects the applicant's research interests/goals and an approach for establishing an independent research program, by the closing date to: Chair, Search Committee, NIAAA; NIH National Institute on Alcohol Abuse & Alcoholism; c/o Ms. Patricia Scullion; 5635 Fishers Lane, Room 3061; Bethesda, MD 20892 **For Federal Express delivery, Rockville, MD 20852 or submit via secure email: LCTSRecruit@mail.nih.gov <<mailto:LCTSRecruit@mail.nih.gov>> . The closing date for receipt of applications is February 27, 2009. The NIH encourages the application and nomination of qualified women, minorities and individuals with disabilities. DHHS and NIH are Equal Opportunity Employers.

###

Statistical Genetics Director

Laboratory of Genetics, NIA

(deadline: February 28*)

The National Institute on Aging (NIA), a major research component of the National Institutes of Health (NIH) and Department of Health and Human Services (DHHS), is recruiting for a Staff Scientist (Facility Head) who will serve as the Statistical Genetics Director of the Laboratory of Genetics (LG), Intramural Research Program (IRP), in Baltimore, MD. The incumbent will be responsible for collaborating in and coordinating statistical genetic and epidemiological analyses of aging-related human conditions and diseases. The collaborative research includes the adaptation or development of new analytic programs with participation in an interactive group studying genetic and epidemiological data for selected aging-related phenotypes in the Baltimore Longitudinal Study of Aging; in other outbred populations; and in the Sardinian "founder population".

Accordingly, the duties of this position require the applicant to hold a Ph.D. and have at least 2 years of additional postdoctoral experience in statistical genetics or comparable epidemiological statistics. Applicants must have a record of scientific accomplishments,

including excellence in statistical analyses and qualifications to develop, update, and manage statistical staff and analysis software.

Salary is commensurate with experience and accomplishments. The salary range for Staff Scientists is \$82,961 - \$166,430. A full Civil Service package of benefits (including retirement, health, life and long term care insurance, Thrift Savings Plan, etc.) is available. Applicants must send curriculum vitae, bibliography, and three letters of recommendation to: Chair, LG Staff Scientist - Statistical Genetics Search Committee; Vacancy #NIA-IRP-09-02; c/o Peggy Grothe, Intramural Program Specialist; Office of the Scientific Director, National Institute on Aging, 251 Bayview Blvd, Suite 100, Room 04C221 Baltimore, MD 21224. Position will remain open until filled; however, the application review process will begin February 28, 2009. If additional information is needed, please call 410-558-8012 or email: grothep@grc.nia.nih.gov <<mailto:grothep@grc.nia.nih.gov>> .

###

Chief

Pulmonary Medicine Branch, NHLBI

(deadline: March 1)

The Division of Intramural Research of the National Heart, Lung and Blood Institute is seeking applications from exceptional clinical investigators for the position of Chief, Pulmonary Medicine Branch. The successful candidate will develop a robust clinical research program in the NIH Clinical Center, the 230 bed centerpiece of the NIH campus. The incumbent will also be expected to develop a pulmonary research network in the Washington area to take advantage of relevant patient populations at regional hospitals. It is anticipated that this program will also develop a pulmonary/critical care medicine fellowship program in conjunction with the well established Critical Care Medicine Department, Clinical Center and potentially with other regional universities.

An M.D. or M.D./Ph.D. degree and record of research accomplishments as evidenced by publications in major peer-reviewed journals are required. The clinical facilities and research laboratories are located in the new state-of-the-art, Mark O. Hatfield Clinical Center. This position comes with start up funding, as well as stable intramural personnel and budget support, with the expectation that the chief will recruit new tenure track faculty and staff clinicians. There is access to advanced core facilities, including the NIH Clinical Research Center; a pharmacy development service; a transgenic and knockout mouse facility; a state-of-art multi-modality imaging facility; an advanced fluorescent activated cell sorting facility; and state of the art genomics, microarray and proteomics.

The NHLBI is committed to developing a dynamic, highly productive clinical and basic pulmonary program that can provide national and international leadership in targeted areas. A competitive salary commensurate with experience and qualifications is offered. Appointees may be US citizens, resident aliens or non-resident alien with or eligible for a valid employment visa. Applications must be received by March 1, 2009.

Please submit a curriculum vitae, brief statement of research interests and three letters of reference in PDF or MS Word format only (no paper applications will be accepted) to: Robert S. Balaban, Ph.D., Scientific Director, NHLBI; c/o Ariel Herman, IAMB Section Chief, NHLBI, at NHLBI_recruit@mail.nih.gov <mailto:NHLBI_recruit@mail.nih.gov?subject=>> . DHHS and NIH are Equal Opportunity Employers. Applications from women, minorities and persons with disabilities are strongly encouraged.

###

Department of Health and Human Services
National Institutes of Health
National Cancer Institute
Center for Cancer Research

Tenure-Track or Tenure-Eligible Physician-Scientist
Dermatology Branch
March 1, 2009*

The Dermatology Branch, Center for Cancer Research, National Cancer Institute is a national leader in investigative dermatology, cutaneous biology and cutaneous immunology. We are seeking an outstanding tenure-track or tenure-eligible physician-scientist to carry out original, independent, and innovative laboratory studies in a stimulating research environment.

About NCI's Center for Cancer Research

The Center for Cancer Research (CCR) is the largest intramural research component of the National Cancer Institute (NCI). CCR's enabling infrastructure facilitates clinical studies at the NIH Clinical Center, the world's largest dedicated clinical research complex; provides extensive opportunities for collaboration; and allows scientists and clinicians to undertake high-risk, high-impact laboratory- and clinic-based investigations. Investigators are supported by a wide array of intellectual and technological and research resources, including animal facilities and dedicated, high quality technology cores in areas such as imaging/microscopy, chemistry/purification, mass spectrometry, flow cytometry, genomics/DNA sequencing, transgenics and knock out mice, arrays/molecular profiling, and human genetics/bioinformatics. For an overview of CCR, please visit National Cancer Institute <<http://ccr.cancer.gov/>> .

Dermatology Branch laboratories are located on the campus of the National Institutes of Health in Bethesda, Maryland, a suburb of Washington, DC.

Applicants must have an M.D. or M.D., Ph.D. degree and be Board-certified in Dermatology. The successful candidate will have expertise and a record of achievement in an interesting area of contemporary biomedical research that is relevant to important diseases such as cancer. A clinical dimension that complements a laboratory research program is desirable, and a commitment to training and mentoring is required. The incumbent will direct an independent research program consisting of post-doctoral fellows and support personnel funded by the NCI intramural research program. Research support for developing a state-of-the-art laboratory that includes sufficient space, equipment and a supply budget that will sustain a productive research program will be provided.

Salary is competitive and commensurate with research experience and accomplishments, and a full Civil Service package of benefits (including retirement, health insurance, life insurance, and a Thrift Savings Plan) is available. Candidates may be eligible for the NIH Loan Repayment Program <<http://www.LRP.NIH.gov>> . This position is not restricted to U.S. citizens.

Interested individuals should submit a cover letter, curriculum vitae, brief statement of research interests and future plans (1-2 pages) electronically to hayesid@mail.nih.gov by mail to the address below. Applications will be reviewed starting March 1, 2009, and will be accepted until the position is filled.

Dr. Ronald E. Gress, Chair
Search Committee
Dermatology Branch
Center for Cancer Research, NCI
c/o Ms. Ida Hayes, Executive Secretary
9000 Rockville Pike
Building 10, Room 12N238 MSC 1908

Bethesda, MD 20892-1908

DHHS, NIH and NCI are Equal Opportunity Employers.

The NIH is dedicated to building a diverse community in its training and employment programs.

###

Deputy Scientific Director

Division of Intramural Research, NIMH

(deadline: March 2*)

The National Institute of Mental Health (NIMH), a major research component of the National Institutes of Health (NIH) and the Department of Health and Human Services (DHHS), is seeking exceptional candidates for the position of Deputy Scientific Director, Division of Intramural Research Programs (DIRP). The Deputy Scientific Director will work with the Scientific Director to lead and manage a vibrant intramural research program with more than 50 independent principal investigators, an extensive network of core service facilities (<http://intramural.nimh.nih.gov> <<http://intramural.nimh.nih.gov>>), and a budget above \$160M.

The Deputy Scientific Director will assist in the recruitment of new faculty, oversee the expansion of the Division and its programs into several state-of-the-art research facilities on the NIH's Bethesda, Maryland campus and help manage the scientific resources at the NIMH DIRP. Applicants must have a Ph.D., M.D., or equivalent degree in the biomedical sciences, with broad research experience and experience in direct administration of a multidisciplinary research program. Applicants may have the opportunity to perform independent and/or collaborative scientific studies. Applicants should be known and respected within their profession as distinguished individuals of outstanding scientific competence. Salary is commensurate with experience and accomplishments. Experience with NIH administrative policies, procedures, and operations is highly desirable but not essential.

Interested candidates should send a letter of interest, to include a complete description of research and administrative experience and rationale for applying for this particular

position (2-3 pages maximum), contact information for at least six references, and a curriculum vitae and bibliography to: Dr. Susan Swedo, Chair, Search Committee for Deputy Scientific Director, DIRP, NIMH, c/o steyerm@mail.nih.gov <<mailto:steyerm@mail.nih.gov>> or to Bldg. 10, Rm. 4N-222, 9000 Rockville Pike, Bethesda, MD 20892-1381. Review of applications will begin on March 2, 2009, but applications will continue to be accepted and considered until the position is filled. DHHS, NIH, and NIMH are Equal Opportunity Employers.

###

Staff Scientist

Laboratory of Neurogenetics, NIA

(deadline: March 24)

The Intramural Research Program (IRP) of the National Institute on Aging (NIA) is recruiting for a Staff Scientist position in the Cell Biology and Gene Expression Unit of the Laboratory of Neurogenetics (LNG), located in Bethesda, Maryland. This is a renewable position with an initial 5 year appointment for a highly motivated individual with a strong background and extensive experience in molecular and cell biology.

Extensive experience in gene cloning and mutagenesis, recombinant protein expression and purification and associated kinase assays, mammalian tissue culture methods and analyses including confocal microscopy is required. Prior experience in array platforms, including gene expression and protein arrays is also needed. Specific knowledge of the biological functions of gene products related to Parkinson's disease and related disorders is highly desirable. The incumbent will be expected to train and assist other members of the laboratory including students and fellows and will be expected to take a key role in maintaining research continuity within the laboratory.

Because of the specialized nature of the work, a PhD with at least two years of subsequent experience is required. A strong publication record is also desirable.

Salary is commensurate with research experience and accomplishments. The salary range for a Staff Scientist is \$82,961-\$166,430. A full Civil Service package of benefits (including retirement, health, life and long term care insurance, Thrift Savings Plan

participation etc.) is available. Additional information regarding the NIA IRP and the LNG are available at the following websites: <http://www.grc.nia.nih.gov> <<http://www.grc.nia.nih.gov>> and <http://www.grc.nia.nih.gov/branches/lng/cbgeu.htm> <<http://www.grc.nia.nih.gov/branches/lng/cbgeu.htm>>

To apply: Please send a cover letter, curriculum vitae, bibliography, statement of research interests and three letters of recommendation to: Peggy Grothe, Intramural Program Specialist; Vacancy # NIA-IRP-09-01; Office of the Scientific Director, National Institute on Aging, Biomedical Research Center, 251 Bayview Boulevard, Suite 100, Room 04C232, Baltimore, MD 21224-6825. Applications must be received before March 24, 2009. If additional information is needed, please call 410-558-8012 or email: grothep@grc.nia.nih.gov <<mailto:grothep@grc.nia.nih.gov>> . DHHS and NIH are Equal Opportunity Employers

###

Tenured or Tenure-Track Researcher

Metabolism Branch, NCI CCR

(deadline: April 1)

The Metabolism Branch, NCI, is searching for a tenure-track or tenured investigator engaged in laboratory-based research in the biology of normal or malignant lymphocytes. The research program should be in any area of basic or patient oriented investigation that complements the existing focus of the Branch on the pathogenesis, diagnosis or treatment of lymphomas or multiple myeloma. The Metabolism Branch is located on the Bethesda campus of the NIH. Current areas of research include the molecular diagnosis of lymphomas, the use of genome-wide RNA interference screens to uncover molecular targets in cancer, the analysis of signal transduction and transcription factor networks in normal and malignant B cells, the biochemistry of transcriptional regulation, the development of monoclonal and cytokine-based therapies for lymphomas, and the clinical evaluation of novel chemotherapeutic strategies and molecularly-targeted therapies for lymphoma. Candidates for the position should have an M.D./Ph.D., Ph.D., or M.D. and strong research credentials. Applicants for this position should submit a curriculum vitae including bibliography, a statement of research interests, a two-page outline of the proposed research program, and three letters of

recommendation to Chairman, Search Committee, Metabolism Branch NCI, Attention: Jean Decker, Bldg 10 Rm 4N115, 10 Center Drive, M.S.C. 1374, Bethesda, MD 20892-1374. You may also e-mail your application to deckerj@mail.nih.gov <<mailto:deckerj@mail.nih.gov>> . Applications should be submitted no later than April 1, 2009. DHHS and NCI are equal opportunity employers.

###

Staff Scientist / Animal Program Director

National Institutes of Aging

(deadline: open-ended)

The National Institute on Aging (NIA), a major research component of the National Institutes of Health (NIH) and Department of Health and Human Services (DHHS), is recruiting for a Staff Scientist-Facility Head who will serve as the Animal Program Director for the NIA Intramural Research Program (IRP), as well as Section Chief of the Comparative Medicine Section (CMS) of the Research Resources Branch (RRB). The incumbent will be responsible for an AAALAC accredited animal care and use program and for support of the animal research programs in the Institute, studying animal models of development and aging, and interventions to prevent or alleviate aging-related deficits. The supervisory and regulatory responsibilities of this position require the applicant to hold a veterinary degree (D.V.M., V.M.D., or equivalent degree) with certification or eligibility for board certification in laboratory animal medicine or veterinary pathology.

Applicants must have a proven record of management of an animal research program. The expertise and experience should include, but not be limited to interaction and cooperation with scientific staff in a manner that promotes and facilitates their scientific programs. Duties will include cost-effective breeding and maintaining numerous transgenic and knockout lines (currently in excess of 600) including "difficult" lines, collaboration with scientific staff in effective production and import of new genetically manipulated lines, and, especially, in maintaining a current and accurate database on the colony status. The incumbent will oversee animal health surveillance and maintain both a barrier facility and a quarantine area. The incumbent will perform animal surgery and teach appropriate procedures to animal care and technical staff.

Salary is commensurate with experience and accomplishments. The salary range for Staff Scientists is \$82,961 - \$166,430. A full Civil Service package of benefits (including retirement, health, life and long term care insurance, Thrift Savings Plan, etc.) is available. Additional information regarding the NIA, IRP and the RRB is available at the following websites: <http://www.grc.nia.nih.gov> and <http://grc.nia.nih.gov/branches/rrb/rrb.htm>. To apply: Please send a cover letter, curriculum vitae, bibliography, statement of research interests, and three letters of recommendation to: Peggy Grothe, Intramural Program Specialist; Office of the Scientific Director; National Institute on Aging, 251 Bayview Boulevard, Suite 100- Room 04C232, Baltimore, MD 21224-6825. Advertisement is open until the position is filled. Please include the following vacancy number in all correspondence: Vacancy # NIA-IRP-08-09. If additional information is needed, please call 410-558-8012 or email: grothep@mail.nih.gov. DHHS and NIH are Equal Opportunity Employers.

###

Scientific Director, NIDCD

(deadline: open-ended)

The National Institute on Deafness and Other Communication Disorders (NIDCD) is seeking exceptional candidates for the position of Director, Division of Intramural Research (DIR). The incumbent serves as the principal advisor to the NIDCD Director on biomedical and scientific affairs involving the intramural research programs conducted by basic and clinical research investigators in the field of deafness and other communication disorders. This position offers a unique and exciting opportunity for an extremely capable individual to evaluate research efforts and establish program priorities; direct training of pre- and post doctoral fellows; collaborate with other NIH programs; and advise the NIDCD Director and senior staff of the DIR and areas of science of interest to the Institute. The Division of Intramural Research has a staff of approximately 180 employees and a current annual budget of \$35 million dollars. In addition to the managerial/administrative responsibilities outlined above, the Scientific Director is expected to carry out his/her own research program. Resources commensurate with the proposed program will be provided. The NIDCD seeks

candidates who have a commitment to scientific excellence and the energy, enthusiasm, and innovative thinking necessary to lead and direct the DIR's research efforts at the forefront of science.

Applicants must possess an M.D., Ph.D., or equivalent degree, and have demonstrated scientific leadership and research experience in either a basic or clinical research program of national and international standing in one or more of the areas of research that has or will contribute new knowledge in biomedical and behavioral issues recognized as part of the NIDCD mandate. Salary is very competitive and will be commensurate with the experience of the candidate. A full package of Civil Service benefits is available including: retirement, health and life insurance, long term care insurance, annual and sick leave and the thrift savings plan (401K equivalent). The position is subject to a background investigation.

Please submit a current Curriculum Vitae, Bibliography, and a Cover Letter describing why you are interested in and what you can bring to this position. Application packages should be sent to the National Institutes of Health (NIH), National Institute on Deafness and Other Communication Disorders (NIDCD), 31 Center Drive, MSC 2320, Building 31, Room 3C02, Bethesda, Maryland 20892 or sent via email to mundellg@mail.nih.gov. Additional information may be obtained from Dr. Eric Green at 301-402-2023 or at green@mail.nih.gov. All information provided by the candidates will remain confidential and will not be released outside the NIDCD search process without a signed release from candidate. Applications will be reviewed starting October 6, 2008, and will be accepted until the position is filled. NIH is an Equal Opportunity Employer.

###

Chief, Visuomotor Disorders Section

Laboratory of Sensorimotor Research, NEI

(deadline: open-ended)

The National Eye Institute (NEI) seeks an outstanding clinician scientist for a tenured or tenure-track position as Chief, Visuomotor Disorders Section in the Laboratory of Sensorimotor Research (LSR) in the Division of Intramural Research. This recruitment is directed towards clinicians with expertise in central disorders that affect vision and/or eye movements (including disorders of binocular function). The post offers a unique opportunity for a talented individual to provide strong and stimulating leadership in an organization dedicated to uncovering new scientific knowledge, both laboratory and clinical. We welcome the full range of candidates at all levels.

The Laboratory of Sensorimotor Research is devoted to understanding the organization of the brain related to the control of eye movements, visual perception and their disorders. The Visuomotor Disorders Section Chief is expected to create a vigorous research program dedicated to elucidating the role played by these brain mechanisms in human disease, and to explore treatments. The Chief will develop broad investigational plans, independently and in collaboration with other NEI investigators and research scientists in the United States and abroad. The Chief will examine and treat patients, as well as design, implement and conduct research and clinical protocols. An opportunity exists for the Section Chief to recruit staff and supervise training. The NEI provides an exceptional environment for clinical research including the infrastructure necessary for patient recruitment, a clinical protocol development group, and a Contract Research Organization that provides statistical and epidemiological expertise, data management and analysis, study monitoring, regulatory guidance, and overall operational support. The NIH Clinical Center provides additional access to exceptionally broad medical and diagnostic resources. In addition, the LSR provides exceptional support for more specialized needs, such as the measurement of eye movements and computational analysis/modeling.

The position requires an ability to integrate basic, clinical and translational research, and create an intellectual synergy and an environment for state-of-the art patient care for those suffering from visual dysfunction. At a minimum, candidates should have a Doctor of Medicine degree from a school in the U.S. or Canada approved by a recognized accrediting body in the year of the applicant's graduation, or a Doctor of Medicine or equivalent degree from a foreign medical school which provided education and medical knowledge substantially equivalent to accredited schools in the United States. Candidates should be Board-certified, board eligible or equivalent, have direct clinical experience. Salary is commensurate with research experience and accomplishments. A full Federal package of benefits is available (including retirement, health, life and long term care insurance, Thrift Savings Plan etc). Applicants should submit curriculum vitae, bibliography, copies of their five most significant publications, a summary of research accomplishments and three reference letters. Applicants should also submit a written statement with their perspective on the needs and opportunities necessary to move from the basic understanding of brain mechanisms supporting vision

and eye movements to clinical therapeutic interventions and improved patient care. This statement should indicate how the applicant's particular expertise and background could contribute to this transition. Applications should be sent to: Mica Gordon, Executive Assistant, Office of the Scientific Director, National Eye Institute, Building 31, Room 6A22, 31 Center Drive, Bethesda, MD 20892; Tel: 301-451-6763, Email: gordonmi@nei.nih.gov. NIH is dedicated to building a diverse community in its training and employment. NIH is a part of the U.S. Department of Health and Human Services.

###

Investigator Recruitment in Cancer Genetics, NHGRI

(deadline: open-ended)

The Cancer Genetics Branch (CGB) of the National Human Genome Research Institute (NHGRI) is seeking to recruit an outstanding tenure-track investigator to pursue innovative, independent research in cancer genetics. General areas of interest include, but are not limited to: Cancer Gene Discovery, Comparative Cancer Genomics, Genetic Epidemiology, Molecular Profiling of Tumors, Functional Genomics of Cancer, Genome Instability in Cancer, Markers for Early Detection, and Genetics of Tumor Progression.

The successful candidate will be able to take advantage of interactions with a highly collegial group of scientists within NHGRI and on the NIH campus as a whole. In addition, they will have access to NHGRI's outstanding core laboratories. Candidates must have a Ph.D., M.D., or equivalent degree, as well as comprehensive, advanced training and a record of accomplishment in one of the targeted areas. This position includes generous start-up funds, an ongoing commitment of research space, laboratory resources, and positions for personnel and trainees. Interested applicants should submit a curriculum vitae, a three-page description of their proposed research, and three letters of recommendation through our online application system, at <http://research.nhgri.nih.gov/apply>.

Applications will be reviewed starting November 21, 2008, and will be accepted until the position is filled. For more information on CGB and NHGRI's Intramural Program, please see <http://genome.gov/DIR>. Specific questions regarding the recruitment may be directed to Dr. Joan Bailey-Wilson (Search Chair) at jebw@nhgri.nih.gov or by fax at 410-550-7513. Questions may also be directed to Dr. Elaine Ostrander, Chief, Cancer Genetics Branch, at eostrand@mail.nih.gov or by fax at 301-480-0472. Investigator Recruitment in Cancer Genetics National Human Genome Research Institute. DHHS and NIH are Equal Opportunity Employers and encourage applications from women and minorities.

###

Investigator Recruitment in Genetic Disease Research, NHGRI

(deadline: open-ended)

The Genetic Disease Research Branch (GDRB) of the National Human Genome Research Institute (NHGRI) provides unparalleled opportunities for young investigators to develop world-class research programs in genetics and genomics. The Branch is pleased to announce that it is seeking to recruit a new tenure-track investigator to pursue innovative, independent research as part of this group of highly interactive and supportive investigators. Current GDRB faculty members use a variety of approaches to study the regulation and function of genes involved in normal and abnormal development, focusing on diseases in both humans and model systems. We are seeking to recruit an individual whose research interests and approaches complement those already found within the Branch. Specifically, the ideal candidate will have an interest in developing a research program that integrates: Clinical or translational research; Molecular and genomic approaches aimed at understanding the mechanisms of normal development and disease; and Basic genetic or genomic research.

The Branch strongly supports interdisciplinary research, with NHGRI faculty providing mentoring and guidance to individuals interested in developing research programs involving basic, clinical, and translational approaches. The successful candidate will be able to take advantage of interactions with a highly collegial group of scientists within NHGRI and on the NIH campus as a whole. In addition, the successful candidate will

have access to NHGRI's outstanding core laboratories, as well as the unparalleled resources of the NIH Clinical Center. Candidates must have a Ph.D., M.D., or equivalent degree, as well as comprehensive, advanced training and a record of accomplishment in one of the targeted areas. This position includes a generous start-up allowance, an ongoing commitment of research space, laboratory resources, and positions for personnel and trainees. Interested applicants should submit a curriculum vitae, a three-page description of proposed research, and three letters of recommendation through our online application system, at <http://research.nhgri.nih.gov/apply>.

Applications will be reviewed starting Monday, December 15, 2008, and will be accepted until the position is filled. For more information on GDRB and NHGRI's Intramural Program, please see <http://genome.gov/DIR>. Specific questions regarding the recruitment may be directed to Dr. William Pavan, the Search Chair, at bpavan@nhgri.nih.gov. Questions may also be directed to Dr. Leslie Biesecker, the GDRB Branch Chief, at leslieb@nhgri.nih.gov. Investigator Recruitment in Genetic Disease Research National Human Genome Research Institute. DHHS and NIH are Equal Opportunity Employers and encourage applications from women and minorities.

###

Molecular Biologist

Thoracic Oncology Section, NCI

(deadline: open-ended)

The Thoracic Oncology Section, Surgery Branch, National Cancer Institute, National Institutes of Health seeks to recruit for immediate appointment an outstanding Molecular Biologist to extend ongoing studies pertaining to epigenetic and microRNA- mediated regulation of gene expression in thoracic malignancies. The successful candidate must have at least 3 years post-doctoral experience, and documented productivity and expertise in cancer epigenetics, including including EMSA, DNA methylation arrays, MSP, bisulfite and pyro-sequencing and ChIP. Candidates with documented experience and productivity regarding analysis of micro-RNA expression in cancer cells are of

particular interest. This position offers a unique opportunity to contribute to fundamental pre-clinical studies pertaining to the effects of tobacco smoke on the epigenome, as well as translational research regarding the use of DNA demethylating agents and HDAC inhibitors in lung cancer patients. Interested applicants should submit a cover letter, curriculum vitae, publication list, and three letters of reference to: David S. Schrump, M.D.; Senior Investigator and Head; Building 10, 4-3940; 10 Center Drive, MSC 1201; Bethesda, MD 20892-1201. Tel: 301-496-2127; fax: 301-451-6934; e-mail: david_schrump@nih.gov.

###

Tenured or Tenure-Track Investigator

Clinical Center & NINDS

(deadline: open-ended)

The Division of Intramural Research of the National Institute of Neurological Disorders and Stroke and the Radiology and Imaging Sciences Program of the Clinical Center are recruiting an individual for a tenure-track/tenure eligible position in the area of neuroimaging with a focus on clinical research in multiple sclerosis. The individual will develop and direct an independent research program on imaging diseases of the nervous system and especially multiple sclerosis. The program will conduct its work in conjunction with the Neuroimmunology Branch (NIB), which was established to study the cause and treatment of immunological mediated diseases of the central nervous system. The successful candidate will be able to develop strong interactions with an active neuroradiology program and an active neuroimaging program at the NIH. The individual should have a demonstrated background and knowledge in research focused on neuroimaging diseases of the nervous system. In addition to imaging expertise, the individual should have experience in neurology and/or radiology and the application of clinical trial methodology to the study of disease mechanisms and testing new therapies.

The candidate will have earned a M.D. or Ph.D. degree and will have excellent scientific skills in structuring an original and productive research program using outstanding

communication and collaborative abilities. Preference will be given to individuals who have a medical license in the United States, who have completed training in an accredited training program in radiology or neurology, and is either board eligible or board certified in one of these disciplines. In rare cases outstanding senior candidates will be considered for a tenured position if there is a demonstrated international reputation and well-documented evidence of ongoing independent accomplishments. An individual selected for a tenure-track position is expected to build a dynamic and productive research group. Laboratory facilities, state-of-the-art neuroimaging facilities, research funds and salary are competitive with premier academic institutions.

Applicants should send curriculum vitae, bibliography, statement of research interests, and have three letters of reference sent to: Alan Koretsky, Ph.D., c/o Peggy Rollins; Office of the Scientific Director, Division of Intramural Research; National Institute of Neurological Disorders and Stroke, NIH; Building 35 Room GA908; Bethesda, MD 20892; or to Peggy.Rollins@nih.gov <<mailto:Peggy.Rollins@nih.gov>> . Applications will be reviewed upon receipt. HHS and NIH are Equal Opportunity Employers.

###

* Denotes that applications will continue to be accepted and considered until the position is filled.
